Reasons for joining ECML

- Montenegro joined ECML in 2008
- to benefit from ECML's support in implementation of language education policies at a practitioner's level
- to make informed decisions, in line with international developments in language education
- to offer teachers, teacher trainers and advisors from educational institutions the opportunity to experience and contribute to ECML activities

What we do

- new target audience - the foreign language teachers' associations (English, French, Russian, German and Italian)
- NCP/NNA and the GB member met the presidents of all foreign language teachers' associations
- the immediate results: registration in the online directory and the appointment of EDL national relay

Challenges

- from dissemination for awareness towards dissemination for action -“Action” refers to a change of practice
- from “delivering and receiving of a message” to “the engagement of an individual in a process”
- how to motivate language experts to prepare projects and apply for the ECML mid-term programmes
